TYPE 1: TWO STICKERS FOR EACH SIDE

➔ **Pag.2**

TYPE 3: THREE STICKERS FOR EACH SIDE + LABELS

➔ **Pag.3**

TYPE 1: THREE STICKERS FOR EACH SIDE

Clean the rims thoroughly with neutral products, then degrease the surface with alcohol or degreaser.

Wait about ten minutes.

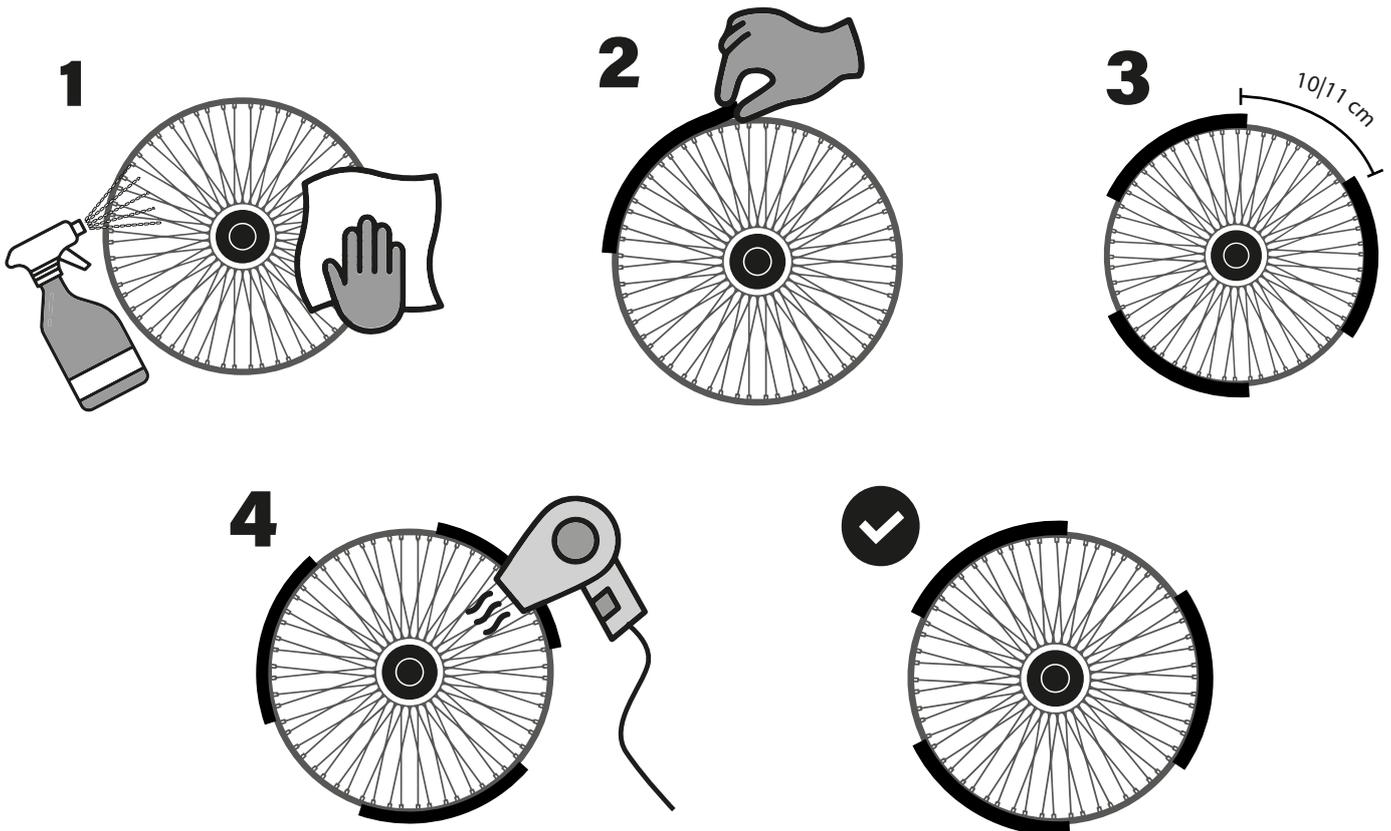

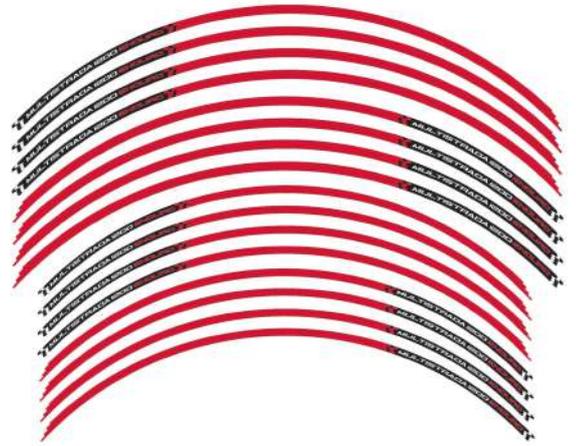

Attach the three strips to the circle (one at a time), equidistant from each other.

(The length of the strip varies depending on the diameter of the circle. The smaller strips are spaced approximately 10 cm apart, while the larger strips are spaced 11 cm apart.)

After application, heat the strips for better adhesion.

(Use a hairdryer from a distance that is not too close)

Do not wash the rims for at least 24 hours after application.

The package contains 1 spare sticker per type.

TYPE 1: TWO STICKERS FOR EACH SIDE

Clean the rims thoroughly with neutral products, then degrease the surface with alcohol or degreaser.

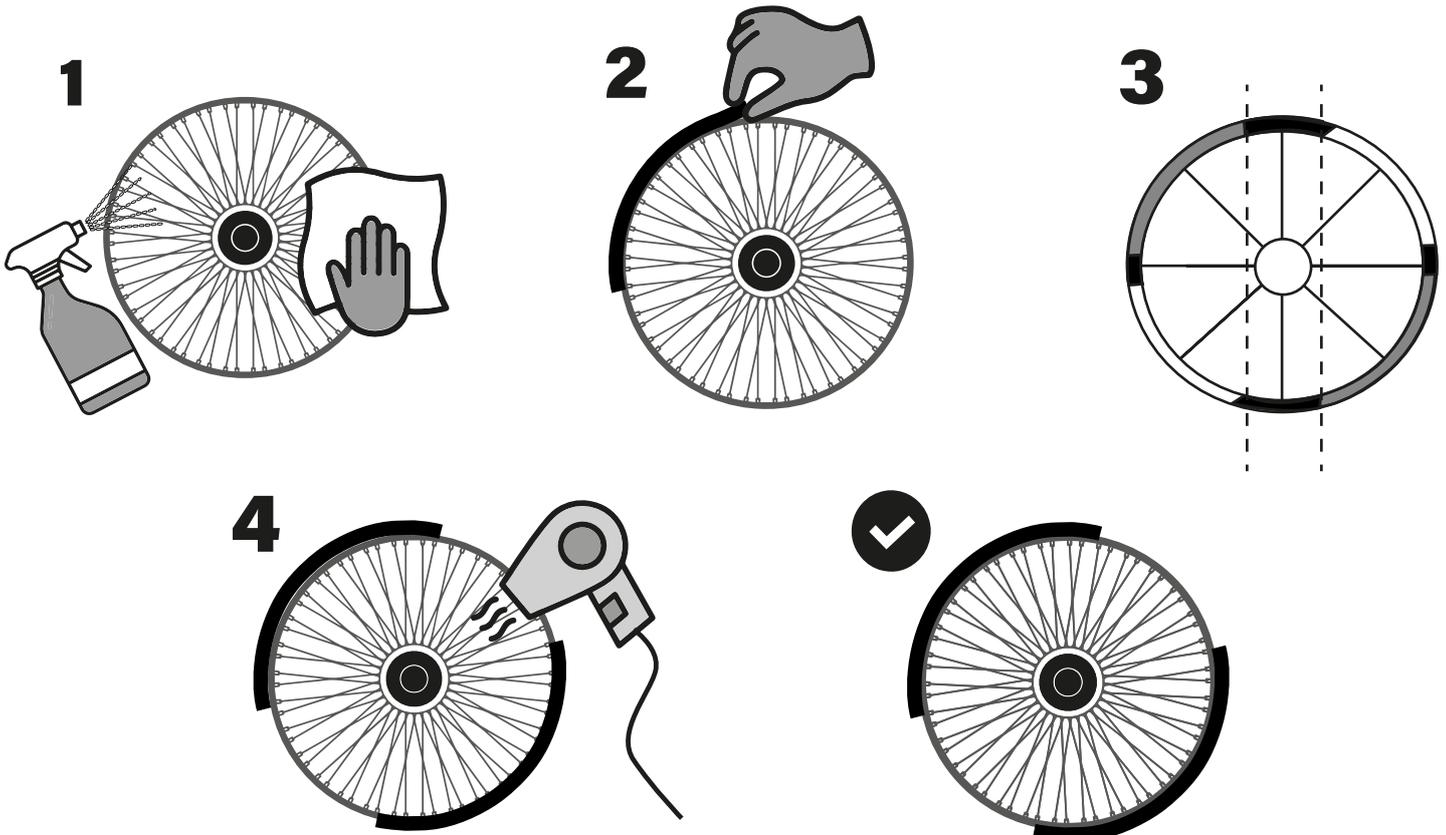

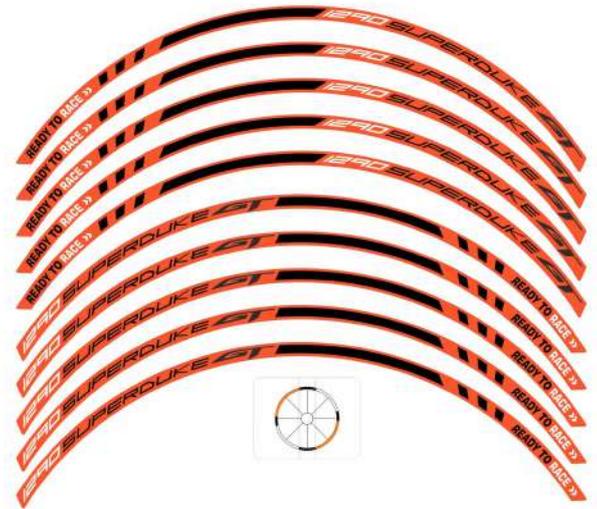

Wait about ten minutes.

Attach the three strips to the circle (one at a time), equidistant from each other.

To position it equidistantly, it is recommended to align the end of the strip with the centre of the circle. (See illustration 3.)

After application, heat the strips for better adhesion. (Use a hairdryer from a distance that is not too close)

Do not wash the rims for at least 24 hours after application.

The package contains 1 spare sticker per type.

TYPE 3: THREE STICKERS FOR EACH SIDE + LABELS

● Clean the rims thoroughly with neutral products, then degrease the surface with alcohol or degreaser.

● Wait about ten minutes.

● Attach the three strips to the circle (one at a time), continuously.

(The end of the strip connects to the beginning of the next strip, leaving no space between strips.)

● After attaching the last strip, trim off the excess.

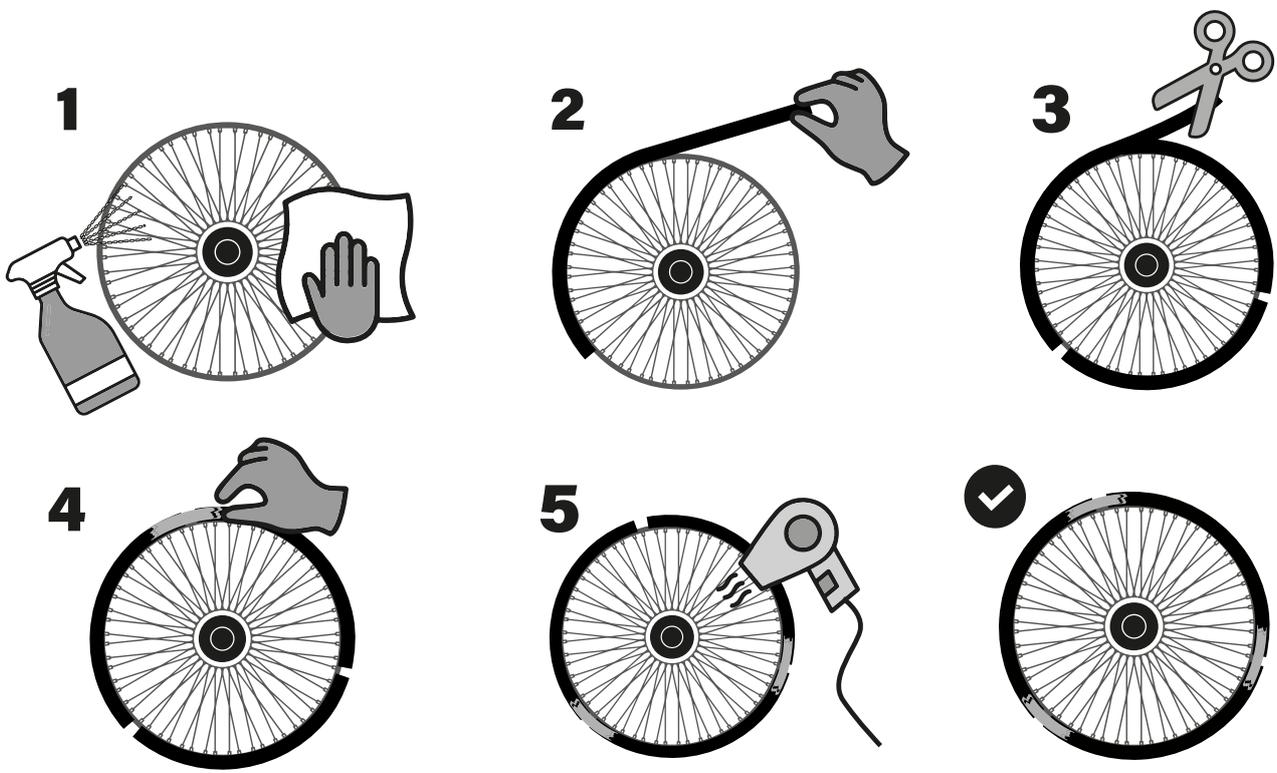

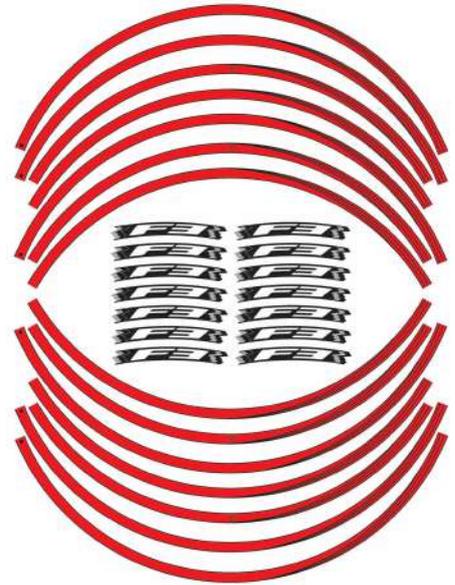

● Stick the small stickers over the ends of the strips you stuck on earlier.

(Where one strip ends and another begins, covering the 'cuts' between the strips)

● After application, heat the strips for better adhesion.

(Use a hairdryer from a distance that is not too close)

● Do not wash the rims for at least 24 hours after application.

The package contains 2 spare stickers of each type.
